

CORGI HOMEHEAT EXPRESS FIT WAIVER

Under the Consumer Contracts (Information, Cancellation and Additional Charges) Regulations 2013, when contracts are considered to be agreed away from trade premises or at a distance, the customer has the right to cancel the contract within fourteen days of the delivery of the last of the goods.

There can be occasions however, when both the company and the consumer can make an “express request” confirming that they are happy for work to begin within the cool off period.

Please Note: If you make an “express request” for the work to start you can cancel within the cancellation period as long as the installation is not completely finished. However, if you cancel after making the “express request” you will be liable for any work performed up to the point of cancellation.

If you wish for us to begin work within this cancellation period you must give us express permission, in writing, to do so. We would ask you to read the statement below and tick the checkbox to confirm that you understand the implications of giving this “express consent”.

I/We understand that ticking the box below does not affect my/our right to cancel the contract in the 14 day cancellation period which begins on receipt of all the goods described in the contract and accepted quotation (provided the installation is not completely finished).

I/We understand that if I/We cancel the contract within the 14 day cancellation period, I/We will be liable for any work performed up to the point of cancellation. This may include reasonable costs for: (a) any work already carried out by CORGI HomeHeat Ltd, and (b) any goods already installed into my/our property.

I/We hereby give express consent for CORGI HomeHeat Ltd to commence work on the agreed installation date.

CORGI HomeHeat Ltd is authorised and regulated by the Financial Conduct Authority. We are a credit broker and not a lender and offer credit facilities from a panel of lenders/from one lender. The availability of credit depends on your status and credit checks.
